

This has been a short half term but very busy! The children have taken part in some fantastic special days and events and we hope you enjoy finding out what's been happening in our school.

In English, we have written our own poems called A Magic Box. The children have been very creative and imaginative in choosing what could go in their 'box'. Some examples of their poetry include:

- a kaleidoscopic rainbow
- an obsidian black tree that reigns over the forest
- a spark from a wizard's wand
- sapphire blue ink from an author's quill
- a roar from a fierce centaur

St David's class also held a homework exhibition and showcased a range of models and 'edibles' that they had created at home. Our themes were magnets and biscuits and the children really enjoyed being inventive and original with their projects.

In Science week, the children thought about the different careers in science that they could have when they are older. From being a vet to a special effects designer, the children realised all the choices they have and how interesting the world of science can be.

For Sports Relief, the children completed a Lego challenge and a circuit track in school. Lots of teamwork and commitment to achieve their mental and physical fitness challenges! Well done everyone!

All of the above, plus weekly swimming lessons, cooking lessons, a lamb visit, an Easter service, a maths challenge morning and a book cover competition has kept us all busy but we have learnt a lot this half term and are ready for the Easter holidays!

We hoped you had a lovely Easter and found time to enjoy some lovely spring walks in Northumberland.
